## A Message from our National Director, Mr John Hasse

We believe that our girls have the right to decide their own futures, that is why we have been part of the Ending Child Marriage campaign since 2018. We have retrieved more than 600 girls from child marriages and now we need to ensure that the girls that have been retrieved do not go back.

Education plays a critical role in keeping girls safe from child marriage. The longer a girl stays in school, the less likely she is to be married before the age of 18. Similarly, families that have increased economic opportunities, are less likely to perceive their daughters as means to a livelihood through dowry payments. Through the 'Strong Girls Strong Zambia' fundraising campaign you can give the gift of education to vulnerable girls that have been retrieved from child marriages. You can also provide families with livelihood opportunities which will prevent child marriages from occurring as a result of financial need. Partner with us so that we can build a strong nation one girl at a time.

Did you know that schools with inadequate infrastructure is one of the main factors impacting academic performance. Dilapidated classrooms, overcrowding, lack of boarding facilities and inadequate water, sanitation and hygiene infringe on the learners right to quality education. Schools with inadequate menstrual hygiene facilities force female students to remain at home resulting in pupils missing school and sometimes dropping out all together. Lets do our part to create infrastructure for 8 schools in Pemba, Isoka, Kapiri Mposhi, Chisamba and Kasama Districts that will keep the girl child safe and in school.
